The Need for Expansion

1. Prayer Hall will be able to meet the demand
2. Community Hall is no longer adequate for the regular functions such as the monthly dinners and Community Iftars.
3. Classroom space is way behind the current need. An immediate solution is needed.
4. Teenagers and adults need for a place of getting together.
5. Our teenagers in particular need an alternative place for them to exercise and meet their Muslim friends to play a game of pool or watch a football game in a clean environment. Having a recreational facility within the Center is a way to attract them to the Masjid and keep them close to their worship place.
